

## LifeTiles - Sprint Reflection 6

**Jos Winter**

**Joren Hammudoglu**

**Rutger van den Berg**

**Albert Smit**

**Arjan Langerak**

User Story	Task	Assigned to	Estimated effort	Actual effort	Finished	Notes
As a user I want to have more overview so I want to zoom	graph zoom (non-semantic)	Arjan	4h	5h	no	zooming turns out to be much harder than expected
As a user I want to be able to easily send error information to the developers, so that it can quickly be fixed	Logging	Joren	2h	2h	yes	
As a user I want to be able to see as much interesting information as possible	semantic zooming (chain collapsing)	Rutger + Albert	2d	8h	no	
As a user I want to load a graph quickly, so I don't have to wait too long	refactor and optimization of traversers	Rutger + Joren	1d	2d	yes	Joren did this, so it took longer as it was originally a two-man job
As a user I want to be able to quickly see which sequences are drug resistant.	Annotation Parsing	Jos	1d	6h	yes	Known mutations are now being displayed and a tooltip appears if hovered.
As a user I want to be able to see which tiles follow which	Edges between tiles	Arjan	4h	3h	no	it worked before implementing bucketcaching, must be fixed.

As a user I want to save a specific location , so I can quickly return to it.	Bookmarks	Jos	1d	1d	no	Visualization of bookmarks and annotations works, inserting bookmarks doesn't work right now.
As a user I want to be able to view only a subset of the data	tree filter	Albert	1d	1d	yes	
As a user I want to be able to view only a subset of the data	graph filter bucket cache	Arjan	2h	4h	yes	there were some issues with updating the view
As a user view large graphs	bucket caching	Jos	4h	4h	yes	bucket caching implemented, large graphs are now visible in real-time.
As a user I want software to be reliable.	Maven Code coverage	Arjan	2h	1h	yes	Albert actually implemented this
